Reliability Test Items And Conditions

Class	Test item	Testing environment	Testing time	Reference standard
Endurance test	Working life	20mA Continuous lighting at the maximum rated current at room	1000	MIL-STD-750D:1026
			1000 hours	
			-24 +72)	MIL-STD-883D:1005
			-24hours +72hours	JIS C 7021:B-1

High emperatv

Endurance test

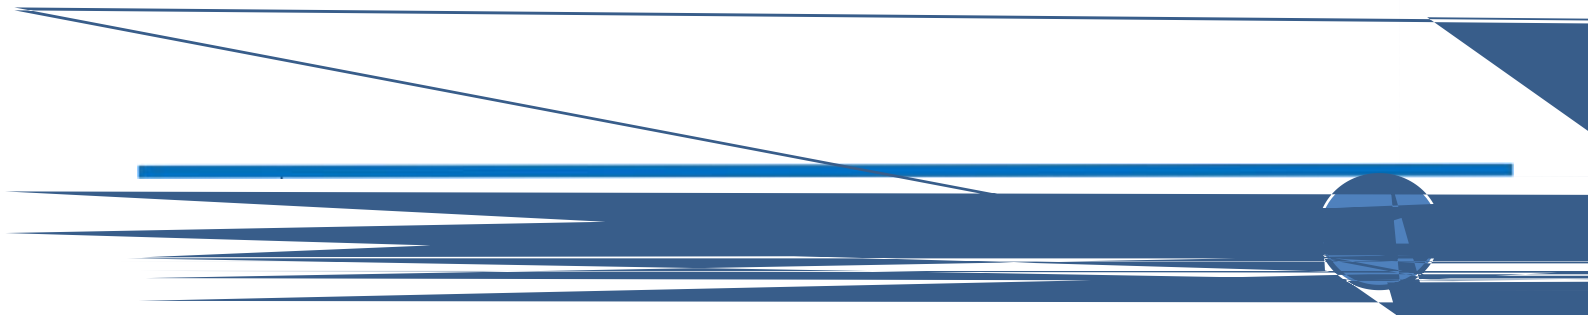

使用注意事项（3）

Precautions (3)

其他事项

When handling, do not touch the LED chip with your fingers. If the chip is contaminated, it will not only affect the light output, but also affect the reliability of the LED chip. If the chip is contaminated, it will result in catastrophic failure of the LED chip. Do not put excessive stress on LEDs, especially on the chip.
