Reliability Test Items And Conditions

Class	Test item	Testing environment	Testing time	Reference standard
	Working life	20mA Continuous lighting at the maximum rated current at room	1000 -24 -24hours 1000 +72 +72hours hours)	MIL-STD-750D:1026 MIL-STD-883D:1005 JIS C 7021:B-1

High emperatv

Endurance test

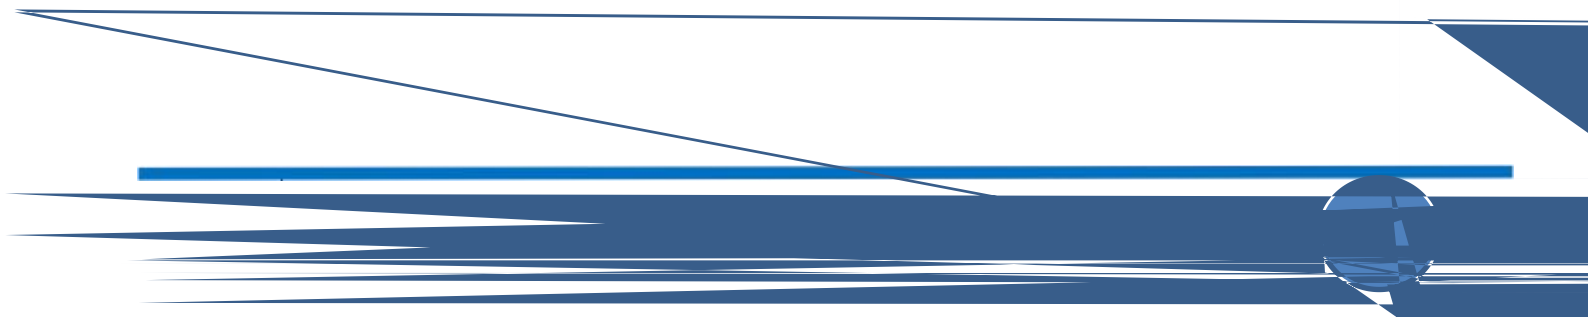

使用注意事项（3）

Precautions (3)

其他事项

When handling, do not touch the LED chip with your fingers. Fingers can contaminate its surface, but also affect the heat dissipation of the LED chip, which may result in catastrophic failure of the LED chip. Do not put excessive stress on LEDs, especially on the LED chip.
